

PID Temperature Controller

Description:

We have in offer precision engineered Low Cost PID Temperature Controller that has dust and splash proof front panel, which is equivalent to IP66 / NEMA4X. These are engineered from the best quality raw material and are acknowledged for their sturdy construction and durable service life.

Technical Specifications:

- CE approved
- Auto tune pid
- Outputs relay, 4-20mA, 0-10Vdc, SSR Drive
- Sizes- 48 x 48 mm., 48 x 96 mm., 96 x 96 mm.
- Dual outputs with dual alarms
- Multi inputs (T/C: J,K,R,S,T,B,E,N; RTD: Pt100/JPt100; mV, volt, current
- Accuracy $\pm 0.2\%$ of FS ON/OFF temperature controller/ indicator
- Accepts thermocouple (J,K,R,S), RTD(Pt100) & linear
- Options RS232/RS485 communication, process variable retransmission, remote analog set point, transducer excitation
