

# Temperatur e Transmitter

---

## Description:

Owing to the sprawling infrastructure, we have been successful in facilitating our customers with Temperature Transmitter. Provides reliable, accurate and stable temperature measurements, these transmitters are rugged in construction, low in maintenance and longer in service life. Owing to the above mentioned features, these transmitters are widely demanded by various industries for monitoring, control and safety applications. Available in different specifications and models, the Temperature Transmitter offered by us is developed in accordance with the international quality standards to attain highest benchmarks of quality.

## Features:

- High accuracy
- Measuring range 0 - 100 % RH
- Linearised analog 4 - 20 mA signal output (2 wire loop powered)
- Interchangeable sensor
- Excellent long-term stability
- Replaceable humidity sensor assembly
- Wide range of models to suit many applications
- Class - A RTD Pt 100 sensor used for temperature measurement
